4 bd, 2 ba with a 2-car garage, super cute and updated with rustic and modern finishes. Since the home has been purchased the owner has installed new carpet, flooring, Quartz and Granite counter tops and painted both the interior and exterior of the home!

The basement living area has been converted into a 4th bedroom now being used as the Master bedroom with an attached sitting room that can be converted into a walk-in closet or a nursery. Great views from every window upstairs and they get even better when you walk out of the kitchen on the back deck!

Entertain guests one level down on the huge back deck – kids and dogs will love the fully fenced in backyard with 6 foot privacy fencing. This home is perfectly located in the Town of Elizabeth with short walking distances to parks, restaurants, schools and local businesses but far enough off of the main roads to enjoy peaceful living.
